POLYURETHANE TORQUE RODS

TRP Polyurethane Torque Rods are a high quality, competitively priced market alternative to cover your customers' Torque Rod preferences. The Polyurethane bushing is designed to have a long life and be chemically resistant to contaminants. The TRP bushing is bonded and designed with a flange to prevent bushing "walkout". The rod is a robust 1 1/2" diameter with forged rod eyes to ensure it is one of the strongest rods on the market. Added up, these features ensure a long life for the torque rod.
