

## FENDERS

### FEATURES & BENEFITS

- » Manufactured from 5052 Grade Aluminum
- » Primed and ready for paint
- » Lightweight aluminum construction
- » OEM Specs

### TRP PETERBILT 379 ALUMINUM FENDERS

OEM replacement of the Peterbilt 379 aluminum fender. This is the industry's best aftermarket replacement fender available. Unlike a fiberglass replacement, these fenders are much more durable and it does not damage the hood due to the weight of the fender.
